

CENTER CITY CONNECTOR STREETCAR

Thank you for your interest in the Center City Connector. In this weekly update, you'll find info about 2017 construction wrapping up soon and what to expect in January.

DID YOU KNOW? SEATTLE'S CENTER CITY IS GROWING RAPIDLY

There's an increasing need for affordable transportation options in Seattle's city center. The Center City Connector will provide reliable transportation with an estimated 10-minute travel time from Westlake to Occidental.

2017 construction is wrapping up

UTILITY LOCATING WORK WILL PAUSE UNTIL 2018

The holidays are quickly approaching, and crews are working to pack up and clean the work areas this week and next week. Utility locating work will resume after January 1.

NIGHTTIME INTERSECTION WORK ON HOLD UNTIL THE NEW YEAR

We've updated our construction schedule and determined that nighttime intersection work will begin in 2018 instead of the week of November 13.

In January, crews plan to work at night to confirm utility locations. We'll share more details as the work gets closer.

What to expect in January

TEMPORARY WATER MAIN INSTALLATION TO BEGIN

Also in January, crews plan to install the temporary water main along the curb and connect it to buildings on both sides of 1st Ave S between S Jackson St and Yesler Way and on a small section of S Jackson St.

We'll share more details as the work gets closer, but please expect:

- Northbound lanes on 1st Ave S between S Jackson St and Yesler Way will be closed for several months. Intersecting streets will remain open
- The westbound lane on S Jackson St between Occidental Ave S and 1st Ave S will be closed for several months.
- Parking along 1st Ave S between S Jackson St and Yesler Way will be removed
- Temporary water shutoffs for some customers*
- Intersection closures during nights and weekends

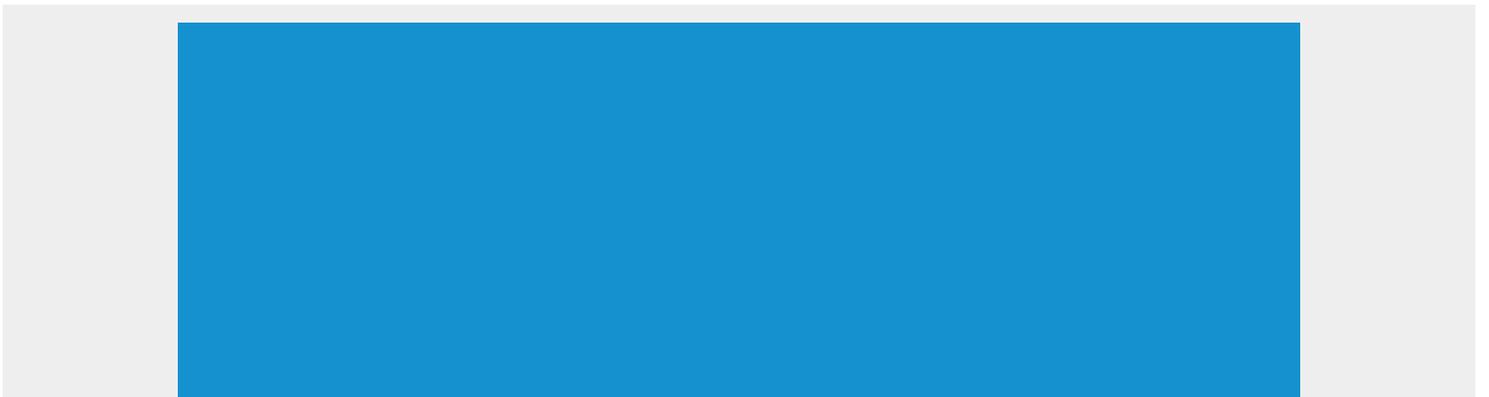

*The timing, number, and duration of water shutdowns will vary by location. We'll continue to share updates on our webpage, and Seattle Public Utilities will contact building managers, businesses, and residential buildings to coordinate timing in advance. Check out our [FAQs and expected water shutdown map](#).

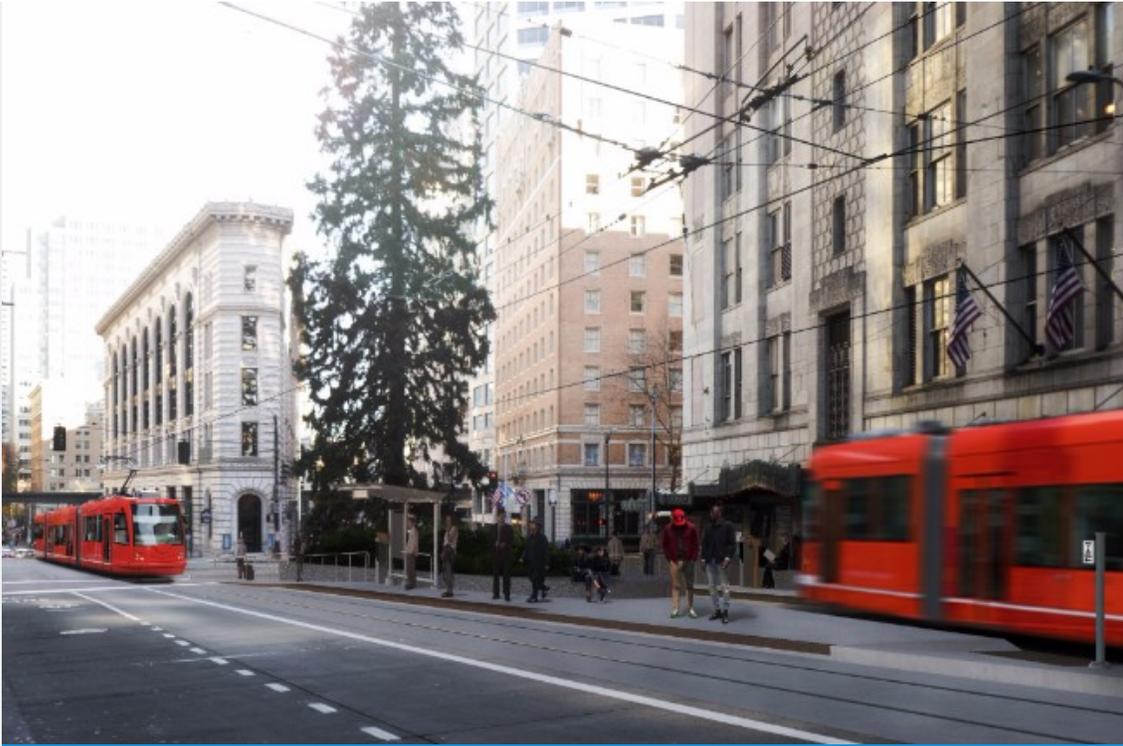

Other work in the area

Puget Sound Energy (PSE) and Seattle City Light (SCL) are also conducting work in the area.

- To learn more about the PSE work, visit: www.pse.com/seattlecore
- To learn more about the SCL work, visit: www.seattle.gov/light/atwork

Our [construction folio](#) has more information about the project and upcoming construction impacts. We'll update this information and provide advance notice as we know more.

The Center City Connector will connect the 2 existing streetcar lines to move more people downtown to live, work, shop, and play. For more info or questions about construction, contact us at centercitystreetcar@seattle.gov or (206) 400-7578.

For more information about the project, please visit our [website](#).
