

# SEATTLE STREETCAR

---

## Center City Connector

Thank you for your interest in the Center City Connector. In this update, you'll find info about upcoming utility construction and a drop-in session recap.

### **Utility construction starting soon!**

Earlier this month, you may have seen our outreach team as we went door-to-door in Pioneer Square on 1st Ave and side streets. We collected information from about 170 businesses and shared that [utility construction will be starting soon](#). If we missed you, and there's something you'd like us to be aware of before construction starts, feel free to [email](#) us.

In mid-October, we expect the construction contractor to begin utility locating work along S Jackson St and 1st Ave. This will involve the use of large equipment to drill and dig in the street to confirm the location of utilities. We'll share more details as we have them. When construction is underway, we'll distribute these email updates weekly instead of monthly.

### **Thank you to everyone who attended our drop-in session!**

On September 12, we hosted a construction drop-in session so people could meet the construction contractor and City staff and to learn about upcoming utility construction in

Pioneer Square. If you couldn't make it, you can view the [display boards](#), [construction notice](#), and other materials on our [website](#).

We'll host a drop-in session for businesses and residents north of Madison St in early 2018. We'll let you know the date as soon as it's scheduled.
