

CENTER CITY CONNECTOR STREETCAR

Thank you for your interest in the Center City Connector Streetcar. In this weekly update, you'll find info about our construction schedule, upcoming lane closures, and the temporary water main installation.

2018 construction is almost here

CREWS TO BEGIN STAGING LAST WEEK IN DECEMBER

Construction for the Center City Connector Streetcar will resume after January 1. In preparation, crews will begin staging materials and equipment on December 28 and 29 on the north half of S Main St between 1st Ave S and Alaskan Way S.

What to expect in January

LANE CLOSURES ON 1ST AVE S AND ON S JACKSON ST

Starting as early as January 2, northbound lanes on 1st Ave S will be closed between S Jackson St and Yesler Way while we relocate and replace utilities. Closing both northbound lanes allows space for crews to perform the work safely and efficiently. We'll keep intersections and a southbound lane open during the day with intermittent closures at night and on weekends. Northbound 1st Ave will be detoured at S Jackson St.

We'll also close the westbound lane on S Jackson St from 2nd Ave S to 1st Ave S. Local access will be available by way of Occidental Ave S. S Jackson St will be detoured at 2nd Ave S.

TEMPORARY WATER MAIN AND PLANNED WATER SHUTDOWNS

Also in January, crews plan to install a temporary water main along the curb and connect it

We'll share more details as the work gets closer, but please expect:

- Removal of parking along 1st Ave S between S Jackson St and Yesler Way
- Intersection closures during nights and weekends
- Temporary water shutdowns for some customers*

*The timing, number, and duration of water shutdowns will vary by location. We'll continue to share updates on our [webpage](#), and Seattle Public Utilities will contact building managers and businesses to coordinate timing in advance. Check out our FAQs and expected water shutdown map at [this link](#).

We'll update this information and provide notice of construction work as we know more.

Other work in the area

Puget Sound Energy (PSE) and Seattle City Light (SCL) are also conducting work in the area.

- To learn more about the PSE work, visit: www.pse.com/seattlecore
- To learn more about the SCL work, visit: www.seattle.gov/light/atwork

DowntownSeattleParking.com makes it easy to find parking availability, rates, and directions. With this tool, visitors can park in a garage with rates as low as \$3/hour, then use the streetcar to reach their destination!

The Center City Connector will connect the 2 existing streetcar lines to move more people downtown to live, work, shop, and play. For more info or questions about construction, contact us at centercitystreetcar@seattle.gov or 24/7 Hotline (206) 400-7578.
